

Lantern for Infusion Therapy: What You Need to Know

CEBT has partnered with Lantern to make infusion therapy simple, more affordable, convenient and personalized. Whether you receive treatment in your living room or at a trusted infusion center, you'll save time and money while having a dedicated care team by your side every step of the way.

What Is Infusion Therapy?

A treatment that delivers fluids, medications or nutrients directly into your bloodstream.

What Does Infusion Therapy through Lantern Include?

- Lower or no out-of-pocket costs for covered treatments*
- Highly qualified providers vetted for safety and quality
- Options for in-home care or local infusion centers
- A Clinical Care Specialist to guide your journey from start to finish

* Savings may vary based on your coverage and medical plan.
Call Lantern to learn more.

How Do I Access the Benefit?

If you or your doctor decide infusion therapy is right for you, call Lantern before beginning treatment. We'll confirm your coverage, explore in-home options and help schedule your first appointment.

Call your Lantern Clinical Care Specialist at (855) 200-6675

What Conditions May Require Infusion Therapy?

Conditions can include cancer, autoimmune diseases, inflammatory disorders, multiple sclerosis, immunodeficiency disorders, blood disorders, infections, gastrointestinal disorders, chronic pain, heart conditions and nutritional deficiencies.

Can I Receive Infusion Therapy At Home?

Many treatments can be delivered safely in your living room. Call Lantern to see if your medication qualifies.

What if I Need an Infusion Center?

If home therapy isn't an option, we'll connect you to a trusted infusion center in our nationwide network.

"Picture the absolute BEST customer service experience you have ever had and then multiply that by 10."

— Rebecca, Lantern Member
